

This is the friend's list screen where you can add and remove friends, as well as see their online status and invite them to a game. The Player Icon (1) shows the picture of the friend and the Player Username (2) shows their username. The Online Status Icon (3) is green if the friend is online and red if they're not. The Invite Friend (4) icon lets the player invite their friend to a game to play multiplayer, while the Remove Friend (5) button lets the player remove a friend from their friend's list. The Scroll Bar (6) on the side lets the user scroll down their list faster than just dragging, and shows how far down the list the user currently is. The Back Button (7) on the bottom lets the user return back to the home page. And the Add Friend Button (8) at the bottom allows the user to add a friend by username.
