

This is the Solo Puzzle Page which shows what the screen will look like when a player is doing a solo puzzle. The Save Buton (1) lets the player save their progress. The Stage Area (2) is where the player can drag Puzzle Pieces (4) from the Puzzle Piece Bank (3) in order to connect pieces and solve the puzzle. Puzzle Pieces left in the stage area will become Placed Puzzle Pieces (5) and will stay in the stage area as long as it was not overlapping another placed puzzle piece when it was let go. The Time Elapsed (6) will be displayed at the top right corner to show the player their time on the current puzzle.
